As a cumlaude graduate of University of Muhammadiyah Malang majoring in Informatics, I am dedicated to programming, especially in web application development using Laravel framework. I have logged more than 2 years of experience as a Laravel Developer with various successful projects, both individually and in team collaboration. As a developer, I have also attended the MSIB 3 front end back end program at Yayasan Dicoding Akademi Indonesia for 6 months and received the "Best Graduate" certificate. In addition, I also attended the MSIB 4 cloud computing program at PT Dicoding Akademi Indonesia for 6 months and received a "Distinction Graduate" certificate.
